1. Introduction

Trilogy is committed to creating and maintaining a safe and positive environment and accepts our responsibility to safeguard the welfare of all adults accessing our facilities and services in accordance with the Care Act 2014.

Trilogy will encourage and support partner organisations, including clubs, suppliers, and sponsors to adopt and demonstrate their commitment to the principles and practice of equality as set out in this safeguarding adult’s policy and procedures.

2. Principles

2.1.1 The guidance given in the policy and procedures is based on the following principles:

The six principles of adult safeguarding

The Care Act sets out the following principles that should underpin safeguarding of adults

Empowerment - People being supported and encouraged to make their own decisions and informed consent.

“I am asked what I want as the outcomes from the safeguarding process and these directly inform what happens.”

Prevention – It is better to take action before harm occurs.

“I receive clear and simple information about what abuse is, how to recognise the signs and what I can do to seek help.”

Proportionality – The least intrusive response appropriate to the risk presented.

“I am sure that the professionals will work in my interest, as I see them and they will only get involved as much as needed.”

Protection – Support and representation for those in greatest need.

“I get help and support to report abuse and neglect. I get help so that I am able to take part in the safeguarding process to the extent to which I want.”

Partnership – Local solutions through services working with their communities. Communities have a part to play in preventing, detecting and reporting neglect and abuse.

“I know that staff treat any personal and sensitive information in confidence, only sharing what is helpful and necessary. I am confident that professionals will work together and with me to get the best result for me.”

Accountability – Accountability and transparency in delivering safeguarding.

“I understand the role of everyone involved in my life and so do they.”

2.1.2 All adults, regardless of age, ability or disability, gender, race, religion, ethnic origin, sexual orientation, marital or gender status have the right to be protected from abuse and poor practice and to participate in an enjoyable and safe environment.

2.1.3 The rights, dignity and worth of all adults will always be respected.

2.1.4 We recognise that ability and disability can change over time, such that some adults may be additionally vulnerable to abuse, for example those who have a dependency on others or have different communication needs.

2.1.5 We recognise that a disabled adult may or may not identify themselves or be identified as an adult ‘at risk’.

- 2.1.6 We all have a shared responsibility to ensure the safety and well-being of all adults and will act appropriately and report concerns whether these concerns arise within Trilogy for example inappropriate behaviour of a coach, or in the wider community.
- 2.1.7 All allegations will be taken seriously and responded to quickly in line with the Trilogy Safeguarding Adults Policy and Procedures.
- 2.1.8 Trilogy recognises the role and responsibilities of the statutory agencies in safeguarding adults and is committed to complying with the procedures of the Local Safeguarding Adults Boards.

3. Definitions

- 3.1 To assist working through and understanding this policy a number of key definitions need to be explained:
 - 3.1.1 **Adult at Risk** is a person aged 18 or over who is in need of care and support regardless of whether they are receiving them, and because of those needs are unable to protect themselves against abuse or neglect.
In recent years there has been a marked shift away from using the term 'vulnerable' to describe adults potentially at risk from harm or abuse.
 - 3.1.2 **Abuse** is a violation of an individual's human and civil rights by another person or persons. See section 4 for further explanations.
 - 3.1.3 **Adult safeguarding** is protecting a person's right to live in safety, free from abuse and neglect.
 - 3.1.4 **Capacity** refers to the ability to make a decision at a particular time, for example when under considerable stress. The starting assumption must always be that a person has the capacity to make a decision unless it can be established that they lack capacity.

9 Poor practice and abuse

Introduction

It can be difficult to distinguish poor practice from abuse, whether intentional or accidental.

It is not the responsibility of any individual involved in Trilogy to make judgements regarding whether or not abuse is taking place, however, all Trilogy personnel have the responsibility to recognise and identify poor practice and potential abuse, and act on this if they have concerns.

9.1 Poor practice

The following are regarded as poor practice and should be avoided:

- Unnecessarily spending excessive amounts of time alone with an individual adult.
- Engaging in rough, physical or sexually provocative games, including horseplay.
- Allowing or engaging in inappropriate touching of any form.
- Using language that might be regarded as inappropriate by the adult and which may be hurtful or disrespectful.
- Making sexually suggestive comments, even in jest.
- Reducing an adult to tears as a form of control.
- Letting allegations made by an adult go uninvestigated, unrecorded, or not acted upon.
- Taking an adult at risk alone in a car on journeys, however short.
- Inviting or taking an adult at risk to your home or office where they will be alone with you.
- Sharing a room with an adult at risk.
- Doing things of a personal nature that adults at risk can do for themselves.

Note: *At times it may be acceptable to do some of the above. In these cases, to protect both the adult at risk and yourself, seek written consent from the adult at risk and, where appropriate, their carers and ensure that Trilogy Designated Safeguarding Officers are aware of the situation and gives their approval.*

If, during your care, an adult at risk suffers any injury, seems distressed in any manner, appears to be sexually aroused by your actions, or misunderstands/misinterprets something you have done, report these incidents as soon as possible to another adult in the organisation and make a brief written note of it.

When to report an adult safeguarding concern

The definition of an adult at risk is when a local authority has a reason to believe that an adult in its area (whether ordinarily a resident or not) is:

- in need of care or support (whether or not the authority is meeting any of those needs)
- experiencing, or is at risk of, abuse or neglect
- as a result of those needs unable to protect themselves against the abuse, neglect, or the risk of it

You may want to refer to [The Care Act 2014](#) or [NHS guidance on different forms of abuse and neglect](#), which are wide ranging, before reporting a concern.

Consent

When reporting a concern you may need to gain the consent of the person involved, but this is not always possible. This is also known as a person's 'capacity' to understand what is happening.

The Mental Capacity Act states to have capacity a person must be able to:

- understand the information that is relevant to the decision they want to make
- retain the information long enough to be able to make the decision
- weigh up the information available to make the decision
- communicate their decision by any possible means, including talking, using sign language, or through simple muscle movements such as blinking an eye or squeezing a hand

If you are still unsure what capacity is, or what it means, you can read a longer  [explanation of capacity \(PDF 468KB\)](#).

More detail on the Mental Capacity Act can be found in the  [code of practice document \(PDF 952KB\)](#).
